

CS303 - Honey Bee Dance Language Translator App

Status Report

Date: October 18, 2020

1) Project Members:

- *Paul Cochran*
- *Christopher Flippen*
- *Chelsea Greco*
- *Vinit Patel*

2) Accomplishments for the week -- and which team members participated/contributed

- *On October 12, we met as a group to discuss how to move forward with the project now that we know that the museum will not have bees until the spring. We were able to come up with several ideas such as focusing on a proof-of-concept type design or making a very generalized version of the program. Each group member had different ideas about how specifically the project should move forward, so we planned to discuss our ideas with Professor Dahlberg.*
- *We tried to meet with Professor Dahlberg on October 14 or 15, but we ended up not being able to do this due to scheduling conflicts*

3) List of Milestones to be completed and anticipated date (indicate which ones are in danger of not being met)

- *Before we show our ideas to Jeremy or Elli, we want to have a more concrete sense of how to move forward with the project. Ideally we can meet with Professor Dahlberg on October 21 so that we can present our revised plan to our sponsors on October 22.*
- *On October 18, we will meet as a group to continue discussing our different ideas of how to proceed with the project.*

4) List of issues, problems, or concern(s)

- *We don't have any specific problems currently.*
